Vitamin C has been established as the building block of collagen, the supporting structure of the skin, giving firmness and a youthful appearance to even aged skin.

Combined with hydroquinone, the Obagi CRx Serum provides both the building block for collagen formation and medical grade brown spot reduction. Take advantage of our 10% discount off any of our Vitamin C serums with your purchase of our BOGO Signature Peel (2 for \$100.), or Glycolic Peel (\$49.), or Microdermabrasion (\$59.)

Remember that exfoliation is the key to maintaining healthy, happy skin!

Whether you choose the deeper Signature Peel, the lighter (peel-in-the-office) Glycolic Peel, or the Microdermabrasion, now is the perfect time to rid your skin of that dull layer of winter dried skin and reveal a fresher, more radiant you!
