## Exfoliation Extravaganza 79.

### Microdermabrasion & Signature Peel

Enjoy these medical grade treatments and look forward to healthier looking and feeling skin than ever before.

The Signature Peel requires a little down-time ... time away from the camera, family reunions, job interviews, weddings, and special occasions, but it is just the thing to have done a week or two before that very special event in your life. When you want to look your most radiant best consider scheduling the Signature Peel. We'll show you how to work through your down-time by toting certain products with you to work and sneaking away to "fix" your face as the peel works it's magic!

The Microdermabrasion requires no down-time and simply polishes your face to perfection by lifting off the dead and damaged skin on the surface of your skin, revealing a lovelier you.

## Accent Skin Tightening 5 treatments 1,000. & get the Exfoliation Extravaganza Package **FREE** (Microdermabrasion & Signature Peel ... a 159. Value)

The Accent Skin Tightening harnesses the power of Radiofrequency to tighten collagen! The Accent works on any area where there is loose skin – the face, neck, thighs, tummy. We will show you how to get the best results from your treatments.
