- * **Purchase 3 Skin Care Products and Receive a Free Microdermabrasion or Peel of your choice.**

Dealing with Dry Winter Skin

- Bundle up... cold, winter air dries your skin, so wear mittens or gloves to protect your hands.
- Turn down the heat as the higher the temperature in your home, the drier the air will be.
- Apply LaRoche Posay's Lipikar Bath Oil before stepping into the shower or bath.
- When applying body lotion, apply to still damp skin. This will trap the droplets of water on your skin allowing your skin to feel silky smooth.
- Use LaRoche Posay's Thermal Spring Water to spritz your face. It will give your skin a drink of moisture and it contains selenium- an antioxidant.
- Kiss chapped lips goodbye. Ceralip by LaRoche Posay is a moisturizing lip balm that will keep your lips soft all winter long.
