

“Competitive Tanning” the new way to get skin cancer

“Competitive Tanning,” trying to get darker than your friends, is a new game in the UK. The result: Skin cancer is now the most common cancer among 15 to 34-year-olds, according to new figures out from Cancer Research UK.

The number of young people affected has doubled in the last 20 years because people let their skin burn in pursuit of the coveted golden tan.

“Getting painful sunburn just once every two years can triple your chances of getting skin cancer,” says Dr Jodie Moffatt, “We know melanoma is caused by overexposure to UV, so it’s likely to be due to tanning, and young skin is particularly vulnerable. Damage that you do now might increase your chances of getting cancer in 20 or so years time. Having fairer, paler skin or lots of moles or freckles puts you more at risk, but you can still get melanoma if you’re dark skinned. The thing is not to burn, that’s what’s key.”*

No one decides to get skin cancer. But it happens. Until recently sunscreen molecules were too large to protect the skin adequately. With advances in technology, you can now protect your skin thereby minimizing your risks of skin cancer. When buying sun protection, you get what you pay for. Consider choosing one of the American Cancer Association approved sunscreens that we carry at LaMaison DermEsthetics. (From \$32. to \$48.) We’ll help you choose one suitable for your skin’s needs. Ask for a complimentary VISIA Computerized Skin Diagnosis consultation with your purchase.

Daybreak Rotary recognizes Dr. David Van

“ It was a morning of recognition at the Griffin Country Club when the Rotary Club of Griffin Daybreak, in conjunction with Griffin-Spalding Partners in Education and the Griffin-Spalding County School System, held its Partners in Education Miles of Smiles Annual recognition Breakfast. As the name of each school or entity was called, its teachers, administrators and Partners in Education stood to be recognized. It was also a big day for the Griffin Technical College Adult Education Program and the Griffin-Spalding Literacy Commission. In addition to receiving a check from Dr. David Van for his recent Laser for Literacy fund-raiser, the organizations received awards from Daybreak Rotary. ✦ ”
