

# Introducing LATISSE™

FDA  
APPROVED

Some of our patients dream of blemish-free skin without brown spot or open pores. They dream of a care-free summer without having to hide their skin under make-up. To some of our patients this is already a reality! Their skin has improved so much that they are happy to run to the grocery store or open the front door without having to hide behind make-up. And now, with the results they are achieving with Latisse™, it looks like a carefree summer awaits them. Latisse™ actually encourages the growth of your own lashes. In just three weeks of application, some of our patients are already seeing their lashes growing in thicker and darker ... and this is just the beginning. Best results are achieved in 16 weeks. Armed with a sun screen, recommended by the American Cancer Association, these patients are confident without make-up and can swim without worrying that mascara is running down their face. Laser hair reduction has added to a carefree summer. We treat every area of the body, except the eyebrows. Men and women alike receive relief from shaving, tweezing and waxing ... permanently. Isn't it time you explored your options with us? ♦

Unretouched photos of LATISSE™ users in the clinical trial before starting treatment and at week 16. The onset of effect with LATISSE™ solution is gradual. In the clinical trial, the majority of users saw significant improvement by 2 months.\* Individual results may vary.

A gentleman and his daughter were in our office recently because he was so impressed with the results she was getting. He had questions. But his BIG QUESTION was how to get his already beautiful wife to come for treatments. I put it to him this way... we take care of our home by giving it a coat of paint when it needs it, resurfacing the wood work, redoing some of the features. He left with a Gift Certificate ~ the best choice for any grown woman! I haven't met a woman who isn't bothered by the way her skin is aging. Some feel it sag when they bends over, or when they lift an arm to wave goodbye to the grandchildren. But she doesn't want her husband to say that he has noticed too. No one, male nor female, wants to be told by their loved one that they noticed the age spots on his or her hands and face. A gift certificate from our office allows the recipient to choose a service for the area that bothers them. ♦

Don't Forget  
Mother's Day ~ May 10th

*The Two of Us ... could pass for sisters (if it weren't for one of us having a few more wrinkles). ...never like the way we look in family photographs (but always like the way the other one looks). ...believe there's no such thing as a flattering bathing suit. ...never have enough time together.*

*From The Two of Us ~ A Book About Mothers and Daughters by Ellen Small and Sara Schapiro.*

Father's Day ~ June 21st

*The love of a father can't be measured ~ only treasured*

*Dad, I know I've given you a few gray hairs over the year... But I never meant for the others to fall out—*  
*Honest!*  
*Hallmark Greeting*
